Ledapol was established in 1990. We wanted to prove that it is possible to create something which would be completely different from that which was generally accepted at that time. We desired to break the barriers and stereotypes by which was led the then society.

Our philosophy is to provide unusual designs into the erotic market.

All of our products are manufactured in Poland and that is one of our principal rules. It gives us full control over the production process and over raw materials' quality. We can react almost immediately to suggestions and demand from the customers. Moreover we can assure that a product line will continue in the future without any interruption.

Today, you hold in your hands the best of our creativity and dedication to the art of erotica.

We encourage you to enter to the world of hidden fantasies and dreams which now can be revealed!
Give a chance to your alter ego...
