INSPIRATION
TO CHANGE

25-year history of high quality.

The company was established in 1990 as a result of the creative idea in Dariusz Krawczyk's mind, which with the time start to have wide repercussions in the most intimate area of life of the thousands of people around the world. Small production was characterised by high quality materials and reliable production. After the time, Ledapol originality and character attracted attention of such big players of the erotic industry giving new opportunity to trade and to make the company growing. Because of customers' and contractors increasing expectations we have decided to enlarge our offer with furniture collection for more demanding customers.

Till today, Dariusz Krawczyk remains the only one owner of Ledapol which makes the decisions about new projects, business proposals and other investments to be taken in a very short period of time with the profit for both sides of a deal. With regard for immensity of work associated with production, shipment of goods and company management in general, Ledapol employs well-qualified and competent workers in every department.

What is more, in order to make simple all processes which take place in the company we put into operation the newest computer systems.

For productions we use high quality materials and components.

All metal parts do not contain nickel nor chrome. Everything is safe for health what is confirmed by many certificates.

The quality of materials is supported by cutting edge technology which is conducive to innovative solutions in sewing. Moreover, our own atelier let the designers create unique patterns and trace new paths in erotic clothing. Ledapol have been aiming to enlarge sensual zones, to make intimate areas more dynamic and to have an influence on people sensuality around the world.
