# REDEFINING LATEX

# REDEFINING LATEX

DATEX – it is an advanced material made of natural caoutchouc and very extensible knitted fabric. This combination give us unlimited and revolutionary possibilities in clothing production. Now the garments can be sewn in common way without gluing process. Great extensibility and resistance is the material advantage. Datex makes you feel comfortable and ensures traditional latex quality at the same time. Additionally datex products are easy to put on and does not cause excessive sweating, which is confirmed by several years of customers opinions.

PRINTED DATEX– it is innovational method of applying pattern to the material. Thus this is nothing else but highly elastic knitted fabric with a printed latex design. Whereas PRINTED LATEX is lined without using any other fabric it is just latex pattern. It is dedicated to the people who enjoy the touch of the latex on bare skin. Designs made from this materials maintain the incredible flexibility and extensibility. What should be also emphasized is the fact that these products are 3 dimensional. The possibility of creating unique patterns and colours is limited only by the designer's imagination. Additional advantages are very high permeability which reduces the effect of sweating, no vacuum effect and freedom in putting on tight clothing.

Hips (cm)	84 - 91	92 - 97	98 - 104	105 - 112	113 - 120

### MATERIALS

Styles 2200-2399 are made of printed datex (DATEX 3D)

Styles 2900-2999 are made of printed latex (LATEX 3D)

Styles 9000-9998 are made of DATEX (knitted fabric coated with latex)

### IMPORTANT INFORMATION!

Printed latex and printed datex designs are made in basic colours black and red. Other colour possibilities are available under certain MINIMUM ORDER QUANTITY and must be individually discussed with our commercial department.

From this year, due to experience, good opinions about our products, refined technology and great interest, we decided to sell our materials to other producers of erotic clothes and accessories.

All information can be obtained by writing to the email address [marketing@ledapol.pl](mailto:marketing@ledapol.pl)
